FREE SIGHT .- The pavillion of Mr. LOVELL'S bear show, was last night entirely blown down by the wind, leaving the grizzly monster in spent in the land of his nativily.

We happened to be passing by, shortly after the accident, and got a free sight for the first time, at the great bear show.

Robbery.-Last night, about 8 o'clock, a negro boy passing on the Gallatin pike to his master's house, when nearly opposite the residence of Dr. Hamlen, was seized by three Irishmen and his money demanded. His "pile," consisting of a half dollar, was soon "shelled out," and his embracing friends finding no more available effects, bid him maktracks.

Paraffine Cannel Coal Oils for Lubricating Machinery.

In Scotland the Cannel Coal-Oils have been very fa orably known and extensively used in the place of perm, for the last few years. Oils of a similar nature and quality are now being made by the Union Coal and Oil Company, and are very highly valued wherever known. This Oil has the same weight and will bear the same temperature, when winter strained, as the best Sperm, and is fully equal to it as a Lubricator: having been subjected to the severest tests upon both heavy and light machinery, and given entire satisfaction. This Oil is peculiarly adapted to Railroads, Cotton Spindles. Machine Shops, and all machinery where a fine Oil is required. It is more economical than ordinary Oils, as it is sold at about the same price. dation of the Gault are too well known to the and as half the quantity will do an equal amount of

lubrication and do it better. This Oil being entirely without gum, should be used the same manner as the finest sperm. The openings of the cans and feeders used for ordinary coarser Oils should be reduced, otherwise, the Oil will be wasted. These Oils will be furnished to dealers at the factory orices, adding freights, insurance, and exchange, and all Oils sold by this company are fully guarranteed as

This will certify that we are using the Paradine Cannel-Coal Oil made by the Union Coal and Oil Company, Maysville, Ky., in our Machine Shop and on the locomotives on the road, and have tested the Oil very refully to discover its qualities; we are entirely a ineed it is a very fine Oi for machinery, and that one callon of this Oil is fully equal to two gallons of the st Lard Oil. It being entirely free from gum, our matimery will run with less power than with any Oil we have used. Although the Oil has a thin appearance, it has a lubricating body superior to any Oil in ordinary use and it is well adapted to Railroads. C. B. KNOWLES, Master Mechanic,

We are using the Paraffine Cannel Coal-Oil in our Ma-hine Shop, and take great pleasure in stating that we ave never used any Oil equal to it. It will wear very reatly longer and lubricate more thoroughly than the est quality of Lard or other ordinary oil, is free from and is just such an oil as is needed for machina. We doubt not it must come into general use. We think this oil fully equal to the best Sperm, and that one gailou is worth more than two of the best Lard AND W ANDERSON.

This will certify that I am using the PARAFFINE CANNEL-COAL OIL manufactured by the Union Coal and Oil Company of Maysville, Ky., in our machine hops and on the locomotives on the Memohis and Charleston Railroad, and have given it the tests, in order to prove its qualities as a lubricating oil. I have no hesitation in recommending it as a su perior oil for Railroad purposes, both in regard to economy and as a perfect Lubricator. I believe it to be the best oil I have used, and that one gallon will go as far as two of lard Oil. WM. R. NICHOLS, Master Machinist. MAYSVILLE, Kv., November 14, 1857. To the Union Coal and Oil Company: GENTIEMES—Having used your Lobricating Oil, made from Cannel Coal, on the machinery of our Cotton Mills (including Engine and Spindles), for the last few weeks, we are prepared to say that we have found it greatly superior to any other, excepting the best Sperm, and fully equal to that article, for which we have been paying from one dollar seventy-five cent o two dollars and twenty five cents per gallen. The Oil distributes very perfectly over the machinery, wears long, and is free from gum, which causes fricon, and consequently heat. Save your Doctor Bills and Time. Mr. Savage, Md., July 7, 1856. DEAR Siz:-In consequence of taking cold after a bad attack of the measles, some eleven years since, I have rom that time suffered greatly with a disordered liver ife was despaired of. I was induced some time ago, brough the persuasion of a friend, Mr. Henry Shafer, to try a bottle of Hoofland's German's Bitters, think ng if it done no good it could do no harm, and knowng Mr. Shafer to be a gentleman who would not re ommend any thing to me that he did not have confilence in. Before I had taken one-third of the bottle, my bowels became regular and I had a fine appetite. When I had used two-thirds of it I considered my health as good as ever it was, and could eat anything without its disagreeing with me in the least. I now keep a bottle of the Eitters in the house continually and in case I take cold, or I feel unwell, I take one or two doses, and it makes a change in my bowels which | at the ensuing March election. is all I need, wherefore, for the past eleven years, my loctor bill has been from \$10 to \$25 per year, besides loss of time and severe illness. Opinion of the Judges of the late Mechanics' Fair.

T the late Mechanic's Fair, held in A City of Nashville, in October, 1857, the Judges appointed to examine articles in Class 43-No. 17, GROVER & BAKER'S Sewing Machines: No. 164, SINGER'S-REPORT upon the PRINCIPAL points and merits of the two machines as follows:

The machines are both two-thread machines. that is, using two separate threads for making the stitch; that of GROVER & BAKER using the thread from COMMON SPOOLS WITH TWO NEEDLES; and that of Singer's using one spool and one needle, the other thread working from a BOBBIN INCLOSED IN A SHUT-TLE, and, in the opinion of the committee, is best adapted to FINE CLOTHING, SAD-DLERY. &c. The GROVER & BAKER as the LEAST COMPLICATED MACHINERY, AND, OF COURSE, EASIER MANAGED; advantage

of USING SPOOLS WITHOUT RE-WIND

A S we have determined to do an exclusive CASH BUSINESS this year, we feel that a word of ex-

danation may be necessary to some of our very particular friends, who have had accounts with us, even since we commenced business, and we are proud to say we have many such friends, who have always paid their accounts promptly. We feel confident we can make it greatly to the interest of all, by buying ou goods cheaper, and of course selling them very much cheaper. There are many persons in our moist wh would prefer buying for cash, if it could be made to their interest to do so. We know many who do thave accounts, and we think it unfair that persons w buy for each should pay the same prices as those buy on credit. It is with these considerations we l adopted an exclusive cash system, and we invite who are in favor of the system, as well as all to who are in favor of buying goods cheap to give us call.
